NOTE

#### Function

To reduce or eliminate wear in localised areas and in so doing, provide continued production capability to plant and equipment in a cost effective manner.

#### Features

- Ease of use and installation, can be cut and shaped to fit over bends and curved surfaces.
- Available with or without notched backing plate.
- Reduced thickness and weight compared to standard chocky bars.
- Ideally suited for in situ repairs and/or installation into localized areas of extreme wear.
- 700 Brinell hardness Chrome Moly white iron metallurgically bonded to mild steel provides extreme levels of both abrasion and impact resistance.

#### Benefits

- Cost effective alternative to hard facing and clad plate.
- Used for almost any application where abrasive wear is causing lost production through machine down time. Examples: bucket wear strips, augers, drill heads, fan blade liners, recycling, machinery.
