

## CHALLENGES THEY WERE FACING

- Maintenance costs and downtime
- Boring Head downtime for wear plate change out
- Eliminate confined space work - this is increased by wear plate change outs
- Long project timelines

Laminite® Star Plates

## LAMINITE® STAR PLATE VS AR400 HARDOX PLATE

A MAJOR TUNNEL BORING COMPANY  
ELIMINATED CONFINED SPACE EVENTS  
THROUGH THE GOTTHARD BASE TUNNEL  
PROJECT USING LAMINITE® STAR PLATES

## OUR SOLUTION

- Replace AR400 Hardox with Laminite® Star Plates.
- Laminite® Star plates offer one size, which can be broken to smaller sizes and shapes for adding wear protection to critical parts.
- Laminite® Star Plates lasted 5 x that of AR400 Hardox.

**SAFETY  
ALWAYS**
